

2003 National DOE/Contractor EEO & Diversity Training Seminar Workshop Feedback

Session: The Science of Diversity/Relevance in a Fast Changing World

Presenter Name(s): Dr. Norm Johnson

Commendations

- Very interesting talk, Norman was a great presenter.
- He is great! Love him.
- I only attended ½ of the workshop but I thought it was awesome!
- Presentation was presented quite well.
- The introduction by Lisa Gutierrez was superior and made us glad we came.
- Great communication/presentation, great statistics, excellent presentation!
- Dr. Johnson was extremely knowledgeable and he used excellent slides.
- Good analogies.
- Enjoyed the technical side of diversity. It validates the theories.
- Norm did a great job sharing this content to a non-technical audience.
- Outstanding workshop. A great way to share knowledge on “the science of diversity”. I believe a number of engineers and scientists would really appreciate. Great job!
- Got a lot of group participation, opened up discussions for “food for thought”.
- Very good data; clear and concise, points demonstrated clearly.
- Different perspective but makes sense.
- Interesting and very different perspective on diversity.
- Good perspective on diversity! Thanks!
- Very interesting perspectives- will take away concepts to help focus diversity education strategies will check out the LANL website.
- I felt enlightened and ignorant all at the same time...
- Outstanding, very unique presentation, great material.
